# Foreword

There are always those in the older generation who tell us that our years in high school are the best years of our lives. Sometimes, when we face our many troubles and seemingly insurmountable problems, we find this fact very hard to believe.

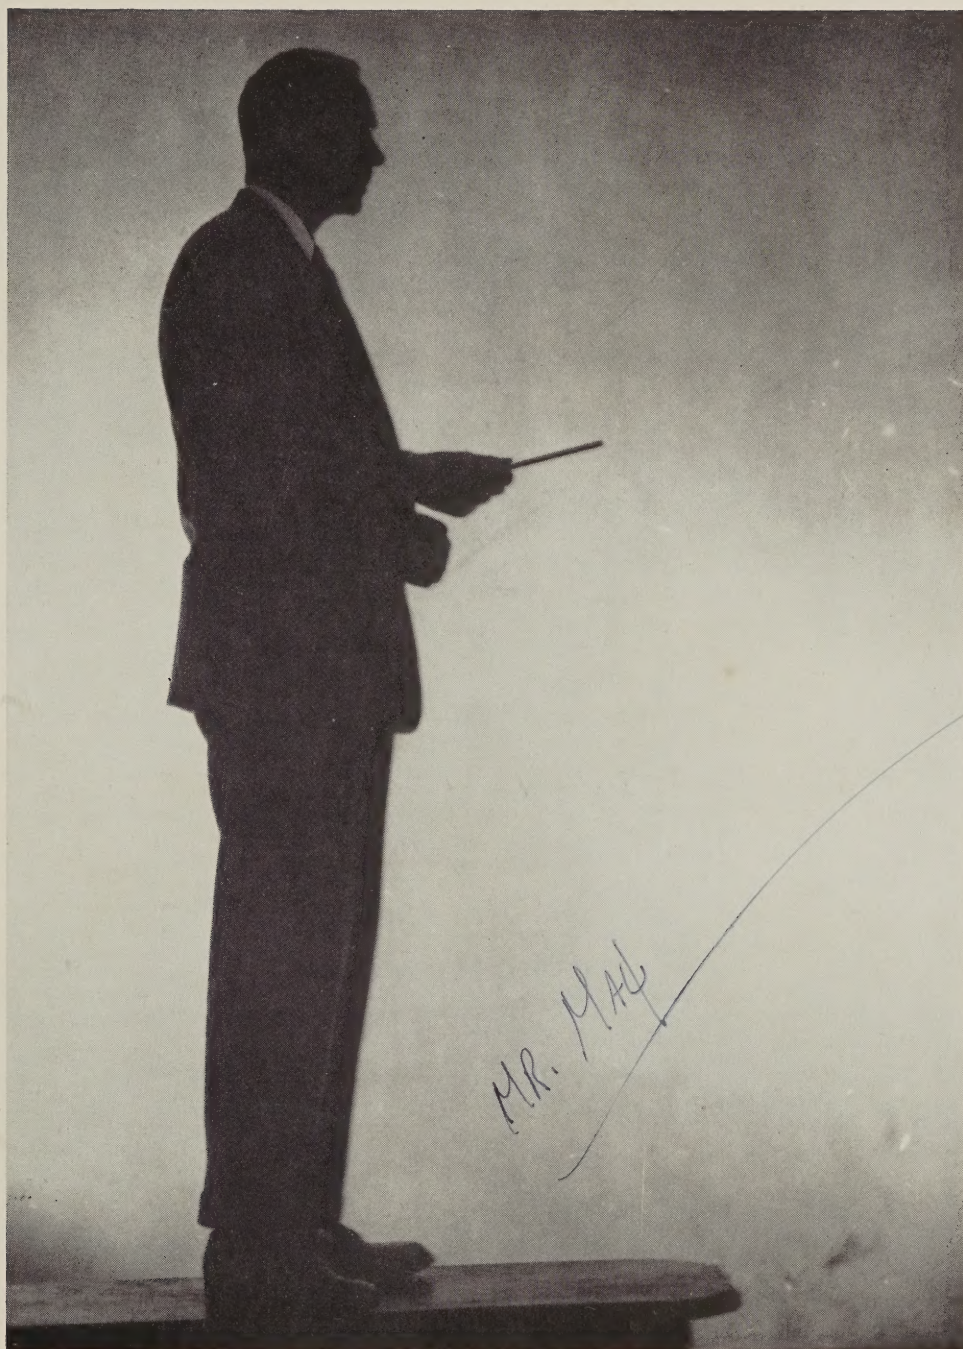

But then there comes the end of high school, and as we look back, we find that those troubles and problems were ridiculously small and that our high school experiences have been wonderful. So we try to keep them forever in our memory.

With this purpose in mind, we have tried to recapture in this annual all that high school has meant to us. The hard work in our classes and the fun-filled activities—they're all here to complete the vivid picture of our high school days.

Your pay starts from the first day at the telephone company — even while you're learning your new job!

That's one reason so many young girls choose a telephone job when they finish school. They don't need experience to get this good job — and they're paid while they learn a skill that'll always be useful.

Find out more about the variety of telephone jobs from your high school counselor — or come in and see us when you finish school.
